## FEATURES & BENEFITS

- This unique extrusion features a flat surface-mounted aluminium section to pair with a large circular diffuser, offering a wide dispersion of light from an LED strip. This channel is ideal for bespoke installations where its unique visuals can be utilised for a broader spread of light.
- Each channel is available with a diffuser which is designed to diffuse the light from each LED in a uniform pattern and also prevents any glare or secondary refraction from occurring.
- Suitable for both dry and damp locations.
- Available in bespoke lengths.
