

SKU code	URSMART
Voltage	DC 12/24V
Output Current	6 Amp Per Channel
Max Output	15 Amp
Transmission Type	RF 2.4GHz
Communication Mode	WiFi-IEEE 802.11b/g/n 2.4GHz
Transmission Frequency	2400-2483.5MHz
Control Distance	30 Metres (without obstructions)
Diming Range	1~100%
Colour Control	Single/CCT/RGB/RGBW
IP Rating	IP20
Operating Temperature	-20°C ~ +60°C
Dimensions (L*W*D)	124mm x 38mm x 23mm
Certification	CE-EMC CE-LVD ROHS
Warranty	3 years

Ready To Connect Smart WiFi App Controlled Receiver

The 5-in-1 receiver is a perfect solution for any LED strip lighting you want to control. Easily synchronize with the Amazon Alexa for seamless voice controlled lighting.

This controller can be used with Single colour, CCT, RGB, RGBW & RGB CW+WW LED tapes. Extremely versatile, simply download the app for iOS or Android. The app can be used without Amazon Alexa as a standalone Wifi controlled lighting solution.

The app is feature packed with different lighting effects as well as standard controlling methods such as dimming. Also features a timer function so your lights switch on to depending on what time you set it to.
