- Suitable for multitude of uses including but not limited to retail environments, events and offices
- Stunning 360° light displays
- Lightweight design
- Available in 0.5 metre. 1 metre and custom lengths up to 2 metres.

## DESCRIPTION

The Kaleido 30 tubes are ideal for giving your next lighting project a powerful and colourful aesthetic. Each tube can be combined to make striking suspended colour combinations and is available in length options of 500mm, 1000mm and custom lengths by request.

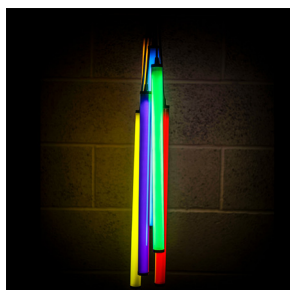

Designed to be non spotting and available in 7 colours, these tubes are manufactured here in the UK by us to give you a reliable and consistent light source by using only the highest quality components, suitable for a multitude of uses including but not limited to retail environments, events and offices.

Each tube comes with a 2 metre flex cable coloured to match the tube and a Black ceiling rose for suspension. These tubes make for potentially stunning, creative ambient lighting displays.

The Kaleido 30 tubes are made using a robust and sturdy circular casing and come with a 3 year guarantee, giving you piece of mind for a solid and reliable install that will last and impress.

The connection cables come with tinned ends as standard and the tubes will require an LED driver to be powered.

Please contact us for a bespoke price on application quote.
