

MOD3D12V1WIP

3 DIODE WIDE ANGLE 2835, 0.72W, 12V, IP67 MODULE.

These 3 Diode Mini Modules are perfect for 3D channel lettering, signage, light boxes and POS systems thanks to their wide beam angle.

Great for outdoor lighting applications and IP67 rated featuring injection mould technology for added endurance and efficiency. This module chain is cuttable every one module.

Rated voltage:	12V
Power Consumption per Module:	0.72 Watts
Power Consumption per Chain:	14.4 Watts
Current Consumption per Module:	0.06A
Current Consumption per Chain:	1.2A
LED Type:	2835
LED Qty Per Module:	3 pcs
Colour Temperature:	10000K
Lumens per Module:	69 lm
Lumens per Watt:	95 lm/w
Beam Angle:	160°
Lifespan:	Upto 50,000 Hours
Wire Length Between Modules:	110mm
Wire Designation:	White & Red(+) and White(-)
IP Rating:	IP67
Working Temperature:	-40°C +50°C
Dimensions per Module LxWxH:	60.6 x 12.4 x 5.2 mm
Screw Hole Type:	M3
Chain Length:	-
Housing Material:	ABS
