

2.4GHz wireless transmitting 4-zone individually control

Easy installation, safe and reliable

SKU code	U4ZONET2
Voltage	180~240V
Transmission Type	RF 2.4GHz
Transmission Frequency	2400-2483.5MHz
Transmitting Power	6dBm
Modulation Method	GFSK
Control Distance	30 Metres (without obstructions)
Diming Range	1~100%
Panel Type	Glass - Scratch Resistant
Panel Size	86mm x 86mm
Panel Depth	33mm
Colour	Dual Colour - Warm To Cool
IP Rating	IP20
Operating Temperature	-20°C ~ +60°C
Certification	CE-EMC CE-LVD ROHS
Warranty	3 years

Wall Mounted Glass Panel Remote Control, CCT

The wall mounted glass panel series of controllers are premium alternatives to handheld remotes. These panels fit standard socket back boxes and are very easy to install.

Features include a delay button, which will fade out the lights after 60 seconds. Handy when you only need them on momentarily.

4 Zones - You can connect endless receivers to 4 different zones in your home, for example your kitchen could have 10 lights, your bathroom 4 lights etc.

Easy to use touch screen with scratch resistant tempered glass. Fade from 100% down to 1% and switch all zones off with a single button.
