

## LONG RUN 20

Our Long run tape is designed to solve the common voltage drop problem with led tape. With this tape it is possible to power 20 Metres in a single run, powered from one end with minimum brightness decrease as commonly seen on standard low voltage tapes where running these distances can be limited to 7m.

Paired with a 5 year warranty, this tape is a good solution where there is limited areas to mount LED drivers on longer runs. Ideal for LED profiles that have a depth of 15mm or more.

SKU code	TL032CW120LR
Voltage	24V
Watts p/m	8w
Number of LEDs p/m	60 LEDs
Colour	Cool white
Colour Temperature	6000k
IP Rating	IP20
Lumens p/m	594LM
Lumens p/w	75LM
LED Chip Type	2835
LED Chip Size	2.8mm X 3.5mm
Beam Angle	120
CRI	>90
PCB Width	10mm
PCB Thickness	1mm
Cut Points	Every 8.33cm
Operating Temperature	-20°C ~ +45°C
Average Lifespan	25000 hours
Dimmable	DALI, DMX, Triac, ELV, 0-10V
Certification	CE, UL, ROHS
Warranty	5 years

### Driver Requirements

1 Metre - >10W	10 Metre - >90W
2 Metres - >18W	15 Metres - >135W
3 Metres - >26W	20 Metres - >180W
4 Metres - >36W	
5 Metres - > 44W
