

SKU code	TL-NEONSIDE/BLU
Voltage	24v
Watts p/m	8.02w
Number of LEDs p/m	144 LEDs
Colour	Blue 465-475nm
IP Rating	IP65*
IK Rating	IK08
Lumens p/m	279lm
LED Chip Type	2835 Epistar
Beam Angle	160°
Min Bend Radius	40mm
Max Running Length	14 metres
Cut Points	Every 4.17cm
Material	UV Resistant PVC
Operating Temperature	-20°C ~ +45°C
Lifespan	Upto 50,000 hours L70 50°
Certification	CE, EMC, RoHs, LVD
Indoor use Guarantee	3 Years
Outdoor use Guarantee	1 Year

LED Neon flex is a flexible light tube designed to produce an ambient linear lighting effect. Its durable IP65* body allows for installations indoors and in damp environments.

Neon flex can be used in some instances to replicate traditional neon where fragile glass isn't suitable. Single Colour Neon flex can be run up to 14M using a 24v LED driver. The neon flex is supplied in a 50m drum. We can cut and supply per meter in customised lengths.

Neon can be dimmed using low voltage mains dimming, Dali dimming, DMX dimming and also with an RF controller.

*IP rating is subject to correct installation.
